Córdoba, Argentina

Ciudadano argentino y español

23/11/2000

I am passionate about technology and programming, and I am actively seeking a dynamic and challenging position where I can continue growing and demonstrate my abilities in the field. I am confident that my technical skills and strong dedication will allow me to contribute significant value to any project I take part in.

Over the past few years, I have developed a solid foundation in programming languages through both courses and personal projects.
